WORK EXPERIENCE

Software Developer

Sep 2018 – Apr 2019

BMO Bank of Montreal

Toronto, ON

- Improved efficiency by automating generation of reconciliation reports using Oracle PL/SQL, TOAD, and UNIX shell scripting tools, eliminating over 30 hours of manual work per month
- Architected internal web applications to improve and maintain functionality for the bank's investment firm, demonstrating trust to high profile clients with over \$20MM in assets
- Reported, tracked, and verified issues using JIRA, Confluence, and Veracode

Software Developer

May – Sep 2017

Buckland Customs Brokers

London, ON

- Developed new features in an ASP.NET environment using JavaScript and C# for an international trade web system used by over 80 major automotive manufacturers including Toyota and GM
- Improved customer website experience by updating existing databases (over 20 TB of entry data and customer information) in Microsoft SQL Server, resulting in quicker load times of analysis reports
- Integrated additional functionalities for a client web application to accommodate a newly opened warehouse in Texas
- Worked with the development and business analyst teams under an agile software development environment for enhanced efficiency

Computer Science Counselor

Jun – Sep 2016

City of Markham

Markham, ON

- Developed excellent communication & leadership skills through teaching content to a young audience
- Introduced the concept of an algorithmic approach to solve difficult problems

PROJECTS

Recognize

- Android app that utilizes the device camera to detect and scan words on chemical labels, reading aloud relevant safety information. Built in Java using APIs from Google Vision and text-to-speech technologies

Social web app

- A forum-like web application for users to post content and receive comments from other users. Implemented with React.js and Node.js

TECHNICAL SKILLS

Languages: Python, Java, C#, C, SQL, HTML, CSS, JavaScript

Tools: Node.js, React.js, ASP.NET, Android Studio, JIRA, Git
