Experience

Software Developer Intern

Toronto, Canada

BMO BANK OF MONTREAL - CAPITAL MARKETS

5/2019 - 8/2019

- Implemented a new centralized logging system to be integrated with Splunk, cutting data analysis processing time by 50%
- Worked on the enterprise web platform to improve ability to view real-time trades and market prices, utilizing the Angular framework
- Utilized JIRA Kanban board for agile project management and followed proper SDLC procedures

Software Developer Intern

Toronto, Canada

BMO BANK OF MONTREAL

9/2018 - 5/2019

- Improved efficiency by automating generation of reconciliation reports using Oracle PL/SQL and UNIX bash shell scripting tools, eliminating over 30 hours of manual work per month
- Maintained web functionality for the bank's investment firm, demonstrating trust to high profile clients with over \$20MM in assets
- Reported, tracked, and verified issues using JIRA, Confluence, and Veracode

Jr. Developer Co-op

London, Canada

BUCKLAND CUSTOMS BROKERS

5/2017 - 9/2017

- Developed new features in an ASP.NET environment using JavaScript and C# for an international trade web system used by over 80 major automotive manufacturers including Toyota and GM
- Improved customer website experience by updating existing databases (over 20 TB of entry data and customer information) in Microsoft SQL Server, resulting in quicker load times of analysis reports
- Integrated additional functionalities for a client web application to accommodate a newly opened warehouse in Texas

Computer Science Counselor

Markham, Canada

CITY OF MARKHAM

6/2016 - 9/2016

- Developed excellent communication and leadership skills through teaching content to a young audience
- Introduced the concept of an algorithmic approach to solve difficult problems
